

Firearms Face-Off at Target World Details

The Firearm Face-Off is meant to be a fun event where customers can shoot two separate firearms and decide which one they like the best. At the end of the month, a winner will be selected at random from all entries. Customers may shoot the Face-Off multiple times and each time they shoot, they receive an entry into the drawing.

The cost to shoot the Face-Off is \$10 per entry. Customers will be provided with the two Face-Off firearms, a custom Face-Off target, eye and ear protection and ten rounds of ammunition. The customer shoots five rounds through each gun at a target distance they choose.

Each month, we will have two new guns for the Firearm Face-Off. The Face-Off will normally begin the first Friday of each month and end at the end of the month. Many of the items involved in the Face-Off are supported by specific manufacturers, so we ask that customers support those manufacturers with future purchases for those product categories.
